## STEAM Traveling Trunks:

The S.T.E.A.M. Traveling Trunks bring Science topics to your classroom! This educational outreach program provides teachers with hands-on materials that will connect students to science, technology, engineering, art, and math in a very real and engaging way. Supplement your curriculum with a variety of materials, including models, games, professional tools, and hands-on activities. This is a growing resource, so continue to check the Grace Museum's website for new trunks!

For additional information or questions, please contact the Education Coordinator at [sciencedirector@thegracemuseum.org](mailto:sciencedirector@thegracemuseum.org)
